

COLORADO GEOLOGICAL SURVEY
Bulletin 40
Radioactive Mineral Occurrences of Colorado

HOW TO USE THIS ZIP FILE

To open the compressed (.zip) file that you downloaded, double-click on the file. Inside the folder labeled **B-40**, there are a number of files and folders. Some files are stored in Adobe Portable Document (.pdf) format, and some are (.pdx) and (.idx) formats which are special indexes of the main B-40.pdf document which is +1,000 pages long. Do not separate the files into different directories once you have un-zipped the file.

HOW TO IDENTIFY AND READ FILES

REPORT DOCUMENTS

- **B-40-Read_Me.pdf**
This file
- **B-40.pdf**
The main report document
- **B-40.pdx**
This is the content file for the indexing files
- **B-40 folder**
Contains the two index files: index.idx and index1.idx

To view .pdf files

If you don't already have Adobe Reader installed on your device, visit <https://get.adobe.com/reader/> to download a free version of the software. Then, start Adobe Reader and choose "File," "Open," and locate the .pdf files where you downloaded them, they will open in Adobe Reader.

To utilize the Adobe Acrobat index/search feature

Using Adobe Acrobat, or Acrobat Reader, open the main B-40-all.pdf document. Once that is open, open the B-40.pdx file which will open a (second) search window in Acrobat. In that panel, select the first radio button "In the current document" under the question "Where would like to search?" and then type the word or words or phrase that you are looking for in the search box. Search returns will show in the lower half of the window. Again, make sure not to move the (.idx) files relative to the (.pdf) and (.pdx) files in the B-40 folder.
