Directory of Active and Permitted Mines in Colorado - 2002

Compiled by James R. Guilinger and John W. Keller

DOI: <https://doi.org/10.58783/cgs.is68.gtnn2577>

Eagle-Gypsum Mine, Eagle County

Colorado Geological Survey
Denver, Colorado
2004

Introduction

This directory lists the operating mines in the state of Colorado as well as mines that have valid, active permits from the Colorado Division of Minerals and Geology (DMG) but operate only sporadically or were otherwise shut-in at the time of this investigation. The information was derived from the DMG and by communication with individual mine operators and permit holders. The directory is current as of late November 2002. This Adobe® PDF file contains a text listing of the active mines and mine permits in the state, both private and government-operated, arranged by county. The Microsoft® Access file "Active Mines and Mine Permits_2002_database.mdb" contains the information in the form of a searchable database. A Microsoft® Excel file that matches the Access database table is also provided. The Adobe® PDF file "Map_Active Permitted Mines CO-2002.pdf" is a cartographic-quality, printable map of the active mines and mine permit locations in Colorado. Numbers associated with mine locations on the map correspond to the number located in the upper left corner of each mine listing in the text of the directory. A GIS shapefile was created from the

database using ESRI® ArcView software. The shapefiles are also included on this CD.

As a starting point for this directory, the DMG database of permitted mines and quarries was downloaded from the internet at <http://mining.state.co.us/operatordb/>. The database was then manipulated to show only mines that hold what the DMG considers "active" permits. None of the mines listed by the DMG as having permits under "temporary cessation" are shown in this directory. "Active" mine permit holders were contacted by telephone to determine if the permitted mine is, in fact, operational and producing. In many cases, it was determined that a mine with an "active" DMG permit is actually not producing and closed, with no plans for future mineral production (for example, coal mines undergoing final reclamation). These permanently closed mines are not listed in this directory. Some non-producing mines are described in the *Comments* field in this directory as being "shut-in" if they are not presently operating but will possibly restart operations at some time in the future. Additional information was also requested from each operator contacted, such as estimated annual mine production (listed in tons unless otherwise noted), and any comments on the operation that the permittee was

willing to share with the public. In the few cases where mine permit holders were not contacted by telephone, permit files of the mines were examined in the offices of the DMG.

Basic geologic information is included with each mine listed in the directory. This information was gained by plotting the location of the mine as listed in the DMG permit records on the geologic map of Colorado (Tweto, 1979). In some cases, the geologic information was modified because more detailed information was provided by the permittee when contacted by telephone, or because of specific knowledge of the mineral deposits by the authors of this report. Other information in this directory that was not noted in previous editions includes the DMG permit ID number, the name of the 7.5-minute topographic quadrangle on which the mine is located, and any secondary commodities present at the mine. Also new in this directory is a listing of all government-owned mining operations, the majority of which are county sand and gravel or borrow pits. Mines operated by government entities are listed separately at the end of the directory (corresponding to the higher numbers on the map).

The map (Active and Permitted Mines Map_2002.pdf) accompanying the directory was produced using GIS methods. Township, range, and section information for each mine was gathered from the DMG database and converted to latitude-longitude format using a converter program. The mine locations could then be plotted on the base map using ArcView® GIS software. A county-by-county check was run to ensure that the data plotted as accurately as possible.

No software is provided on this CD. However, free and updated versions of Adobe Acrobat Reader (for pdf file access) and ArcExplorer (for GIS shapefile viewing) can be found at the following internet sites:

<http://www.adobe.com/products/acrobat/readermain.html>

<http://www.esri.com/software/arcexplorer/>

This directory is a best faith effort by the Colorado Geological Survey to provide an accurate directory of active and permitted mines in the state based on permit information and interviews with operators. If we have made an error of either omission or submission, we apologize to those affected. We welcome any corrections that you may wish to offer. You may call the Colorado Geological Survey at (303) 866-2611 and speak with

someone in the Minerals and Mineral Fuels Section regarding a correction.

Corrections can also be mailed to:

***Colorado Geological Survey
Minerals and Mineral Fuel Section
1313 Sherman Street, Room 715
Denver, CO 80203***

Acknowledgements

We would like to thank the many mine operators and permit holders who generously contributed information about their mines for this directory. Special thanks is also given to Gina Guilinger who plotted mine locations on the geologic map of Colorado. Bruce Humphries and Dan Hernandez of the Colorado Division of Minerals and Geology (DMG) performed reviews of the map and text which improved the quality and the accuracy of the directory. The DMG, through their mine permit database that is available to the public on the internet, provided much of the information regarding mine permit locations, status, and operator contact information that is presented in this directory.

Formation Name: Ogallala-derived gravel Geologic Age: Tertiary

1267 Geisert Pit County: Weld
T 6 N R 65 W Section: 31 Qtr Sec: SE Topo Map: Greeley
Primary Product: Sand and gravel Permit ID: M1978210
2nd Product: Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: 150,000
Comments:
Operator: Weld County (government)
Address: P.O. Box 758
Greeley CO 80632-0000
Contact: Nelson Greg Telephone: (970) 356-4000
Formation Name: Gravel Geologic Age: Quaternary

1268 Hokestra Pit No 1 County: Weld
T 3 N R 68 W Section: 35 Qtr Sec: SE Topo Map: Gowanda
Primary Product: Sand and gravel Permit ID: M1980149
2nd Product: Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: 125,000
Comments:
Operator: Weld County (government)
Address: P.O. Box 758
Greeley CO 80632-0000
Contact: Nelson Greg Telephone: (970) 356-4000
Formation Name: Alluvium Geologic Age: Quaternary

1270 Koenig Pit County: Weld
T 2 N R 66 W Section: 18 Qtr Sec: SE Topo Map: Platteville
Primary Product: Sand and gravel Permit ID: M1980120
2nd Product: Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: None reported in 2002
Comments: Shut-in
Operator: Weld County (government)
Address: P.O. Box 758
Greeley CO 80632-0000
Contact: Nelson Greg Telephone: (970) 356-4000
Formation Name: Alluvium Geologic Age: Quaternary

1272 Marick/Anderson Pit County: Weld
T 11 N R 61 W Section: 31 Qtr Sec: N Topo Map: Hereford
Primary Product: Gravel Permit ID: M1992105
2nd Product: Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: 20,000
Comments:
Operator: Weld County (government)
Address: P.O. Box 758
Greeley CO 80632-0000
Contact: Nelson Greg Telephone: (970) 356-4000
Formation Name: Alluvium Geologic Age: Quaternary

1269 Island Grove Park County: Weld
T 6 N R 65 W Section: 31 Qtr Sec: S Topo Map: Greeley
Primary Product: Sand and gravel Permit ID: M2000010
2nd Product: Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: 102,000
Comments:
Operator: City of Greeley (government)
Address: 501 N. 14th Ave.
Greeley CO 80631-0000
Contact: Welch Thomas Telephone: (970) 350-9522
Formation Name: Alluvium Geologic Age: Quaternary

1271 Lehr Gravel Pit County: Weld
T 10 N R 67 W Section: 1 Qtr Sec: SE Topo Map: Dover
Primary Product: Sand and gravel Permit ID: M1983213
2nd Product: Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: 40,000
Comments:
Operator: Weld County (government)
Address: P.O. Box 758
Greeley CO 80632-0000
Contact: Nelson Greg Telephone: (970) 356-4000
Formation Name: Gravel Geologic Age: Quaternary

1273 Peters Pit No 2 County: Weld
T 12 N R 63 W Section: 27 Qtr Sec: SE Topo Map: Hereford NW
Primary Product: Sand and gravel Permit ID: M1987186
2nd Product: Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: 20,000
Comments:
Operator: Weld County (government)
Address: P.O. Box 758
Greeley CO 80632-0000
Contact: Nelson Greg Telephone: (970) 356-4000
Formation Name: Gravel Geologic Age: Quaternary

1274 Pierce Pit County: Weld
T 8 N R 65 W Section: 7 Qtr Sec: N Topo Map: Antelope Reservoir
Primary Product: Sand and gravel Permit ID: M1980121
2nd Product: Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: 60,000
Comments:
Operator: Weld County (government)
Address: P.O. Box 758
Greeley CO 80632-0000
Contact: Nelson Greg Telephone: (970) 356-4000
Formation Name: Gravel Geologic Age: Quaternary

1276 Thomas Gravel Pit 4 County: Weld
T 8 N R 61 W Section: 1 Qtr Sec: S Topo Map: Keota NW
Primary Product: Sand and gravel Permit ID: M1981286
2nd Product: Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: 40,000
Comments:
Operator: Weld County (government)
Address: P.O. Box 758
Greeley CO 80632-0000
Contact: Nelson Greg Telephone: (970) 356-4000
Formation Name: Alluvium Geologic Age: Quaternary

1278 Brand Pit County: Yuma
T 3 N R 47 W Section: 15 Qtr Sec: N Topo Map: Yuma NE
Primary Product: Sand and gravel Permit ID: M1981250
2nd Product: Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: 500
Comments:
Operator: Yuma County (government)
Address: 1310 S. Blake St.
Wray CO 80758-0000
Contact: Like Paul Telephone: (970) 332-5718
Formation Name: Ogallala-derived gravel Geologic Age: Tertiary

1275 Shippes Pit County: Weld
T 9 N R 66 W Section: 36 Qtr Sec: N Topo Map: Antelope Reservoir
Primary Product: Sand and gravel Permit ID: M1978102
2nd Product: Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: None reported in 2002
Comments: Shut-in
Operator: Colorado Division of Highways (government)
Address: 4340 E. Louisiana Ave.
Denver CO 80222-0000
Contact: Ksouri Ilyess Telephone: (303) 757-9432
Formation Name: Gravel Geologic Age: Quaternary

1277 Adamson Bros. Mine County: Yuma
T 1 N R 42 W Section: 28 Qtr Sec: SE Topo Map: Laird
Primary Product: Sand and gravel Permit ID: M1999047
2nd Product: Borrow rock Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: 500
Comments:
Operator: Yuma County (government)
Address: 1310 S. Blake St.
Wray CO 80758-0000
Contact: Like Paul Telephone: (970) 332-5718
Formation Name: Alluvium Geologic Age: Quaternary

1279 Davis Estate - Pit 2 County: Yuma
T 5 S R 44 W Section: 17 Qtr Sec: S Topo Map: Idalia SE
Primary Product: Sand and gravel Permit ID: M1997060
2nd Product: Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: None reported in 2002
Comments: Shut-in
Operator: Colorado Department of Transportation (government)
Address: 4340 E. Louisiana Ave.
Denver CO 80222-0000
Contact: Ksouri Ilyess Telephone: (303) 757-9432
Formation Name: Eolian sand Geologic Age: Quaternary

1280 **Davis Estate Pit** County: Yuma
T 5 S R 44 W Section: 17 Qtr Sec: S Topo Map: Idalia SE
Primary Product: Sand and gravel Permit ID: M1990008
2nd Product: Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: None reported in 2002
Comments: Shut-in
Operator: Colorado Division of Highways (government)
Address: 4340 E. Louisiana Ave.
Denver CO 80222-0000
Contact: Ksouri Ilyess Telephone: (303) 757-9432
Formation Name: Eolian sand Geologic Age: Quaternary

1282 **Mullins Pit** County: Yuma
T 1 S R 45 W Section: 27 Qtr Sec: SE Topo Map: Vernon NW
Primary Product: Sand and gravel Permit ID: M1981263
2nd Product: Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: 500
Comments:
Operator: Yuma County (government)
Address: 1310 S. Blake St.
Wray CO 80758-0000
Contact: Like Paul Telephone: (970) 332-5718
Formation Name: Eolian sand Geologic Age: Quaternary

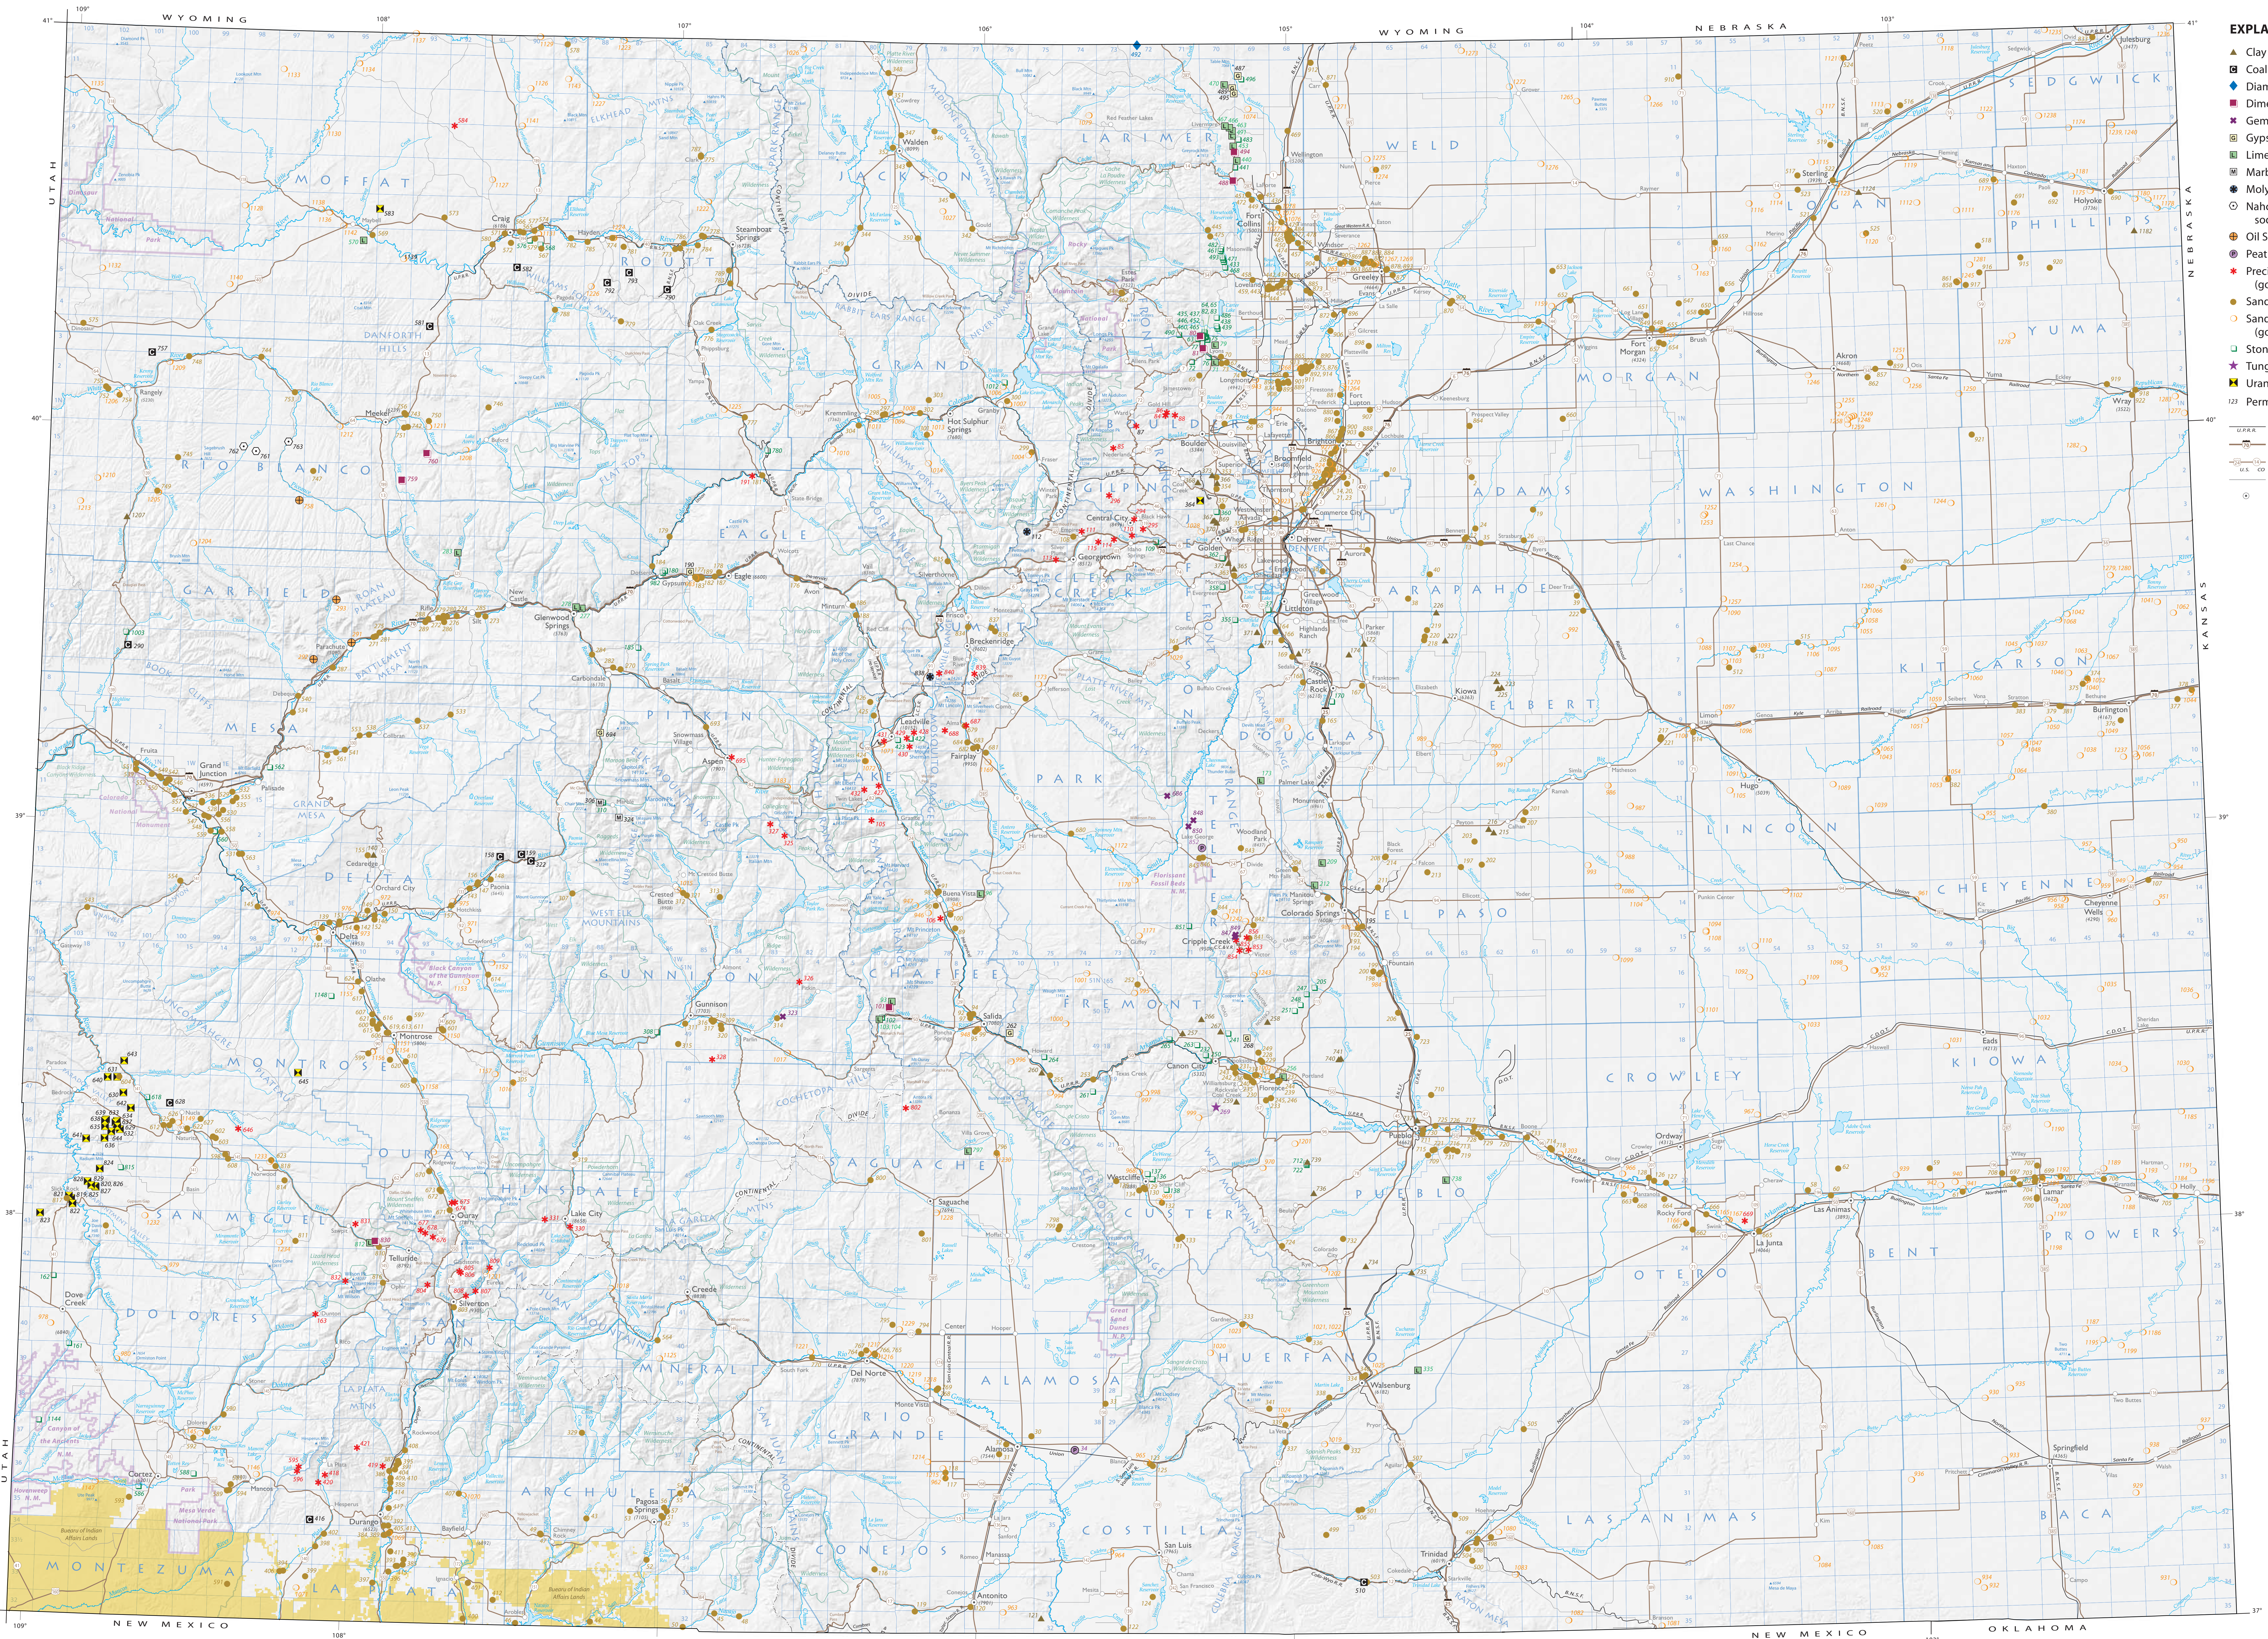

1281 **Mekelburg Pit No 1** County: Yuma
T 5 N R 48 W Section: 8 Qtr Sec: SE Topo Map: Clarkville
Primary Product: Sand and gravel Permit ID: M1981179
2nd Product: Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: 1,500
Comments:
Operator: Yuma County (government)
Address: 1310 S. Blake St.
Wray CO 80758-0000
Contact: Like Paul Telephone: (970) 332-5718
Formation Name: Ogallala-derived gravel Geologic Age: Tertiary

1283 **North Gelvin Pit** County: Yuma
T 1 N R 42 W Section: 8 Qtr Sec: S Topo Map: Laird
Primary Product: Gravel Permit ID: M2001092
2nd Product: Borrow rock Commodity Type: Aggregate
3rd Product: Mine Type: Surface
Estimated Annual Production: 500
Comments:
Operator: Yuma County (government)
Address: 1310 Blake St.
Wray CO 80758-0000
Contact: Shively Rowe Telephone: (970) 332-5718
Formation Name: Alluvium Geologic Age: Quaternary

Directory of Active and Permitted Mines in Colorado - 2002

By James R. Guilinger and John W. Keller

2004

EXPLANATION

- ▲ Clay and Shale
- ◼ Coal
- ◆ Diamonds
- ◻ Dimension Stone
- ★ Gemstones
- ◻ Gypsum
- ◻ Limestone
- ◻ Marble
- Molybdenum
- Nahcolite (soda ash, sodium bicarbonate)
- Oil Shale
- Peat
- Precious and Base Metals (gold, silver, lead, zinc, copper)
- Sand, Gravel, and Borrow
- Sand, Gravel, and Borrow (government site)
- ◻ Stone (undivided)
- ★ Tungsten
- Uranium/Vanadium
- 123 Permit site number from directory
- Railroad
- Interstate highway
- Federal or State highway
- Secondary route
- County seat

Cartography by Larry Scott and Jason Wilson

Bill Owens, Governor,
State of Colorado
Russell George, Executive Director,
Department of Natural Resources
Ronald W. Caltany, Director,
Division of Minerals and Geology
Vincent Matthews,
State Geologist
