GROUNDWATER TEMPERATURE MAP OF COLORADO

By F.N. Repplier, M.M. Relf and R.K. Columbia

Drafted by E. Norwood

EXPLANATION

- Groundwater Temperature Contour - dashed where approximate, in °C
- 49 ° - Thermal Spring or Well with temperature in °C
- 8 - Representative Well temperature, where too few points occur to contour
- Modern Alluvium of the South Platte and the Arkansas Rivers

F° = 1.8°C + 32°
