

LOCATION MAP OF DRILL HOLES USED FOR COAL EVALUATION
 IN THE DENVER AND CHEYENNE BASINS, COLORADO

by Robert M. Kirkham
 1978

EXPLANATION

- coal exploration drill hole
- oil or gas drill hole; log is interpreted from geophysical logs
- △ water well; may be from a driller's log or an interpretive log from a geophysical log
- geotechnical drill hole

Note: Summarized lithologic logs of these drill holes are available from the Colorado Geological Survey, 1313 Sherman, Denver, CO 80203

This map is unedited and does not necessarily conform to the standards of the Colorado Geological Survey

See inset map for drill hole locations
